

How to Configure CPSD Email on the iPhone

Click **'Settings'**.

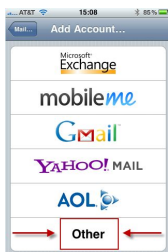

Click **'Mail, Contacts, Calendars'**

Click **'Add Account...'**

Click **'Other'**

Click **'Add Mail Account'**

Fill in **'Name'**.

'Address' is your full email address

'Password' is your CPSD email password.

'Description' is autofilled.

Choose **'IMAP'** at the top of the window.

'Host Name' is **conwayschools.net**.

'User Name' and **'Password'** is your email username and password.

Outgoing Mail Server

Click **'SMTP'** and fill in:

'Host Name' is conwayschools.net

'User Name' and 'Password' is your email username and password.

This will take awhile, then the authentication will fail. This is normal.

'Do you want to try setting up the account without SSL?' – 'Yes'

-Go back to the main screen and open your mail app. Your mail from your conwayschools.net account should start synchronizing. **If it does not connect, complete the remaining steps.**

Click on 'SMTP' then 'conwayschools.net'.

'Use SSL' is off

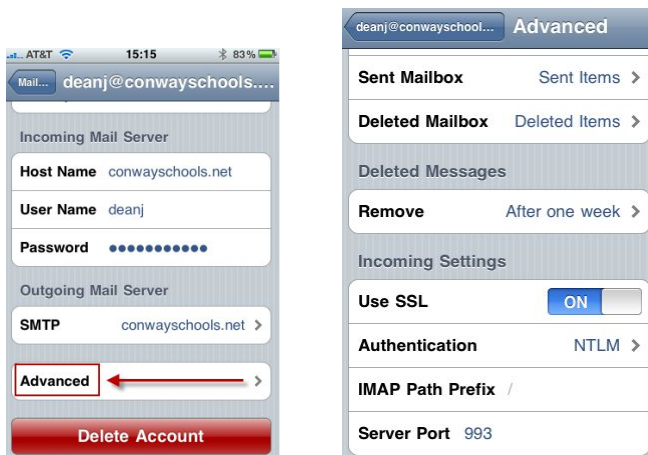

'Authentication' is NTLM.

Go back to main mail screen and click 'Advanced'.

'Use SSL' to ON

'Authentication' to NTLM

Go back to the main screen and open your mail app. Your mail from your conwayschools.net account should start synchronizing.
